Languages	C++, Visual C++, Java, ASP.Net, VB.Net, Visual C#, JavaScript
Database Software	MS Access, MS SQL, DB2
Web Servers	Apache, IIS, Oracle Application Server
Configuration & CASE Tools	Visual Studio .Net, Application Developer, Visio

◆ EDUCATION AND QUALIFICATION

- **IBM Certificates**
 - August 2008, *IBM Certified Advanced Application Developer - Rational Application Developer for WebSphere Software.*
 - August 2008, *IBM Certified Solution Designer - Object Oriented Analysis and Design, vUML 2.0.*
 - June 2008, *IBM Certified DB2 Associate*
 - December 2008,  *IBM Certified Developer - Rational Application Developer for WebSphere Software V6.0*
 - **Graduate Knowledge Course on Corporate Management (June, 2010)**, National Economic University
 - **Bachelor of Engineering (June, 2009)**, Software Engineering, Faculty of Information Technology, Hanoi University of Technology, Vietnam.
 - Thesis title: *"Build a Dynamic proxy Server for web content adaptation".*
 - Thesis mark: 9.9/10.
 - **Higher Diploma Software Engineering (2008)**
 - By Aptech World Wide, India
 - **Fundamental Engineer Certificate (October, 2008)**
 - By VITEC (equivalent to Japan Fundamental Information Technology Skill Standards).
-

◆ FOREIGN LANGUAGES

	Fluent	Good	Fair
English	✓		

◆ HONORS

- **Third Prize in ImagineCup Vietnam 2009 Contest.**
 - Subject: *Website for the Blind*
 - Description: *This project gives blind users a facility to approach with internet. We are using the state-of-art technology of Microsoft for our project. Now, our project hosted at <http://tamhonvietnam.net>*
 - Role: Team Leader
- **Third Prize in Hanoi University of Technology Scientific Research Festival Week.**
 - Subject: *Build a Dynamic proxy Server for web content adaptation*

- o *Description: Nowadays there are many web-enabled devices and they have different input, output hardware, software and network capabilities. In order for a web server to provide optimized content to different clients, it requires a description of the capabilities of the client. Dynamic Proxy Server will deliver content to clients based on their capabilities.*

◆ WORKING EXPERIENCES

• From February 2008 to February 2009	
Position	Developer (part-time student) Project: SmartStockClient
Job Description	1. Program 2. Deploy 3. Maintain
Organization	HT2D company
• From August 2008 to June 2009	
Position	Developer, Team leader (part-time student)
Job Description	1. Prepare user requirement (SRS). 2. Prepare project plan. 3. Program 4. Deploy 5. Maintain
Organization	Software Engineering Department's Lab (Faculty of Information Technology - Hanoi University of Technology).
• From July 2009 to August 2010	
Position	Software Engineer
Job Description	1. Designs, develops, modifies, debugs and evaluates programs for functional areas, including finance, human resources, manufacturing. 2. Trains users in conversion and implementation of system.
Organization	Novellus System Inc.
• From September 2010 to now	
Position	Team Leader/ Project Manager
Job Description	1. Design software architecture 2. Develop company framework 3. Manage projects and resources
Organization	Paradigm Shift Group

◆PROJECTS

• Website for the Blind – tamhonvietnam.net

*From November 2008
to June 2009*

Position in project	Team Leader
Technical Environment	

▪ Hardware	IBM iSeries
▪ Software	C#.NET, SQL Server 2005, Visual Studio 2008 Framework: DotNetNuke 5.2.1
Project Description	Developing a website which provides utilities and facilities for the Blind
▪ Number of members	20 (including volunteers for recording books and processing audio books).
▪ Description	<ul style="list-style-type: none"> ▪ Developing a formal information portal, e-newspaper (automatically news collection) for the Blind ▪ Building a library of audio books, a forum for the Blind.
▪ Customer	Vietnam Association for the Blind

• HRI Project

*From July 2009
to July 2010*

Position in project	Developer
Technical Environment	
▪ Hardware	IBM iSeries
▪ Software	Windows server 2003, .NET 3.5, ASP.NET 3.5, IIS 6
Project Description	Human Resource Integration
▪ Number of members	10
▪ Description	Human Resource Integration is system used by HR Department. It includes 3 sub system: NewHireRequest for hiring people, ECR(employee change request) for promoting or tracking any activities of employees, TerminationManager for managing termination request.
▪ Customer	Novellus System Inc.

• e-Wellness Project

*From Sep, 2010 to
now*

Position in project	Developer, Team Leader
Technical Environment	
▪ Hardware	IBM iSeries
▪ Software	Windows 2008 R2 .NET 4.0, SQL Server 2008 R2, Janus Control, Telerik Controls, WCF, TCP/IP Programming
Project Description	
▪ Number of member	7
▪ Description	Build a system to manage Golf Course, Spa & Fitness Center and Clubs. E-Wellness also uses a unique combination of scheduling, management and reporting techniques to support the operation of any sophisticated business.
▪ Customer	Paradigm Shift Group

◆INTERESTS

Programming

I'm interested in R&D task. Learning a new technology and conducting a presentation about it is very interesting. I like to teach people about programming and technology.

Outdoors

I love traveling and discovering new things which make me feel excited. In my opinion, life is a journey full of discovering, which make life more remarkable. Besides traveling, I also like chatting with my friends, we often go out together, and it's great fun.
