

Khai Le Quang

Position	.NET Developer
Birthday	31/08/1991
Gender	Male
Address	524 Hoang Dieu, Hai Chau district, Da Nang city
Phone number	(+84) 1223512187
Email	khai.le@live.com

PROFILE

EDUCATION

- University of Information Technology – Vietnam National University
- Honors Program – Computer Science department
- GPA: 8.29
- Graduation year: 2013

SKILLS

- **Technical Skills:**
 - Programming:
 - .NET: WPF, WCF, ASP.NET MVC 4, Windows 8 Store App, Entity Framework, Silverlight, LINQ
 - Mobile: iOS, Windows Phone, Android
 - Other: Hadoop, Facebook API, LinkedIn API, YouTube API, Web Crawler
 - Language: C#, Java, Javascript, Objective-C, Python
 - Database: Microsoft SQL Server, SQLite, MySQL
 - Operating System: Windows, Linux, Android, Windows Phone, MAC OS, iOS
- **Soft skills:**
 - Leadership, team working
 - Planning skill
 - Communication and presentation skills
- **Languages:**

Language	Writing	Reading	Speaking	Listening
English	Good	Excellent	Good	Good

EMPLOYMENT HISTORY

Company	Global CyberSoft – Da Nang Branch
Duration	3/2014 - now
Role	.NET Developer
Responsibility	Analysis and design requirement documents Develop .NET application
Technology	.NET Framework

Company	HPT Vietnam
Duration	4/2013 – 1/2014
Role	Team leader
Responsibility	Lead iOS and R&D team.
Team size	3
Technology	Objective C, iOS, .NET

Company	Boomerang-VN
Duration	9/2013 – 9/2013
Role	Software Engineer (part time)
Responsibility	Develop applications for crawling data from websites, forums, Facebook, YouTube, LinkedIn
Technology	ASP.NET MVC 4, SQL Server, .NET Framework

Company	GSOFT
Duration	9/2012 – 11/2012
Role	Freelancer Software Engineer
Responsibility	Read documents, implement WCF Service and iOS application
Technology	SQL Server, LINQ, WCF, iOS Development

PROJECTS

Project name	Pipi Web Service (Global CyberSoft)
Duration	4/2014 – now
Description	Pipi is a friends-finding social network running on mobile devices only. With this application, users can share statuses, photos, looking for friends based on many criteria such as age, location, gender... Allow users to chat with friends in many languages by using the in-app translate feature.
Role	Developer
Responsibility	Analysis and design requirements document. Design database structure. Develop RESTFul web service. Develop socket chat server. Develop stored procedures, triggers, database functions.
Technology	.NET development. SQL Server 2008. ASP.NET MVC 4. Web API 2.
Achievements	Improved T-SQL programming skill. Experience in working with Web API. Improved .Net programming experience. Improved design and analysis skill.

Project name	Rakuten Crawler (Global CyberSoft)
Duration	3/2014 – 4/2014
Description	The PoC for a proxy e-Commerce website, the website displays products crawled from the rakuten.co.jp website and allows customers to purchase products. There is an auto-bot that receives orders from customers and automatically purchases items from Rakuten.
Role	Developer
Responsibility	Analysis and design requirements document. Design database structure. Develop crawler framework.
Technology	.NET development. SQL Server 2008. Regular expression, XPATH.
Achievements	Improved data crawling experience. Improved .Net programming experience. Improved design and analysis skill.

Project name	Time management module (HPT Vietnam)
Duration	12/2013 – 1/2013
Description	A module in HRM system which is responsible for managing and tracking employees working time; monthly calculate working hours; create (for employees) and managing (for managers) leave requests.
Role	R&D team leader
Responsibility	Analysis and design requirement document. Research and implement solution for dynamically applying rules in calculating working hours. Design application UI. Design database structure. Make plan for implementation team.
Technology	.NET Framework. ASP.NET MVC 4. SQL Server 2012.
Achievements	Understand the business logic of time management module. Successfully apply the rule based system in knowledge presentation. Improved design and analysis skill. Improve planning skill. Improved .NET programming skill.

Project name	Talent management module (HPT Vietnam)
Duration	9/2013 – 12/2013
Description	A module in HCM system which is responsible for managing, finding talent/potential employees in organization; suggests appropriate employees for projects or specific purposes on the basis of input criteria

Responsibility	Analysis and design requirement document. Design database structure. Design application UI prototype.
Technology	.NET Framework. ASP.NET MVC 4. SQL Server 2012.
Achievements	Understand the business logic of talent management module. Improved design and analysis skill. Improved .NET programming skill.

Project name	HRM Mobile (HPT Vietnam)
Duration	4/2013 – 9/2013
Description	The iOS version of HRM system, the application allows user to create/view/manage requests, reports, views org charts or information statistic based on their role.
Role	iOS group leader
Responsibility	Design application UI/UX. Develop core solutions. Develop WCF service Planning and assigning tasks for other team members. Testing.
Technology	iOS development. WCF SOAP service.
Achievements	Improved iOS development skill. Improved team working skill.

Project name	Sufi for Windows Phone (KGP Corp)
Duration	8/2013 – 10/2013
Description	Windows Phone application for streaming movies
Role	Developer
Responsibility	Design application UI/UX. Develop application.
Technology	Windows Phone development. MVVM pattern.
Achievements	Improved Windows Phone development skill.

Project name	Café HD Manager (Freelancer)
Duration	7/2013 – 8/2013
Description	An application for managing operations of a movie-coffee shop. The operations include managing orders, room booking service, export report and statistic
Role	Developer
Responsibility	Design application UI/UX. Design database structure. Develop application.
Technology	Windows Presentation Foundation. SQL Compact Edition.

Achievements	Improved .NET programming skill.
---------------------	----------------------------------

Project name	ePass (Freelancer)
Duration	5/2013 – 7/2013
Description	iOS application for providing shops' promotion information and replacing the awareness of bringing many membership cards by smartphone.
Role	Developer
Responsibility	Design application UI/UX. Develop application.
Technology	iOS development. Core Data.
Achievements	Improved iOS development experience.

Project name	Medical Joe Mobile (GSOFT)
Duration	9/2012 – 11/2012
Description	An iOS application ordered by Toyota R&D department. Being used in hospitals by nurses and doctors.
Role	Developer
Responsibility	Understand requirement documents. Develop application UI/UX. Develop Web Service. Develop iOS application.
Technology	iOS development. Windows Communication Foundation. .NET Framework.
Achievements	Improved iOS development experience. Improved requirement analysis skill. Improved .NET programming skill. Improved team working skill.

Project name	Proximity Advertising (Freelancer)
Duration	11/2011 – 12/2011
Description	Android application uses GPS and web service to provide information about user's specified POIs - Point Of Interest (e.g. coffee, restaurants...) when they entered a specific area.
Role	Developer
Responsibility	Design application UI/UX Develop application.
Technology	Java for Android. HttpComponent. SQLite.
Achievements	Improved Android development experience.

Other experience

- *Sale and customer support manager for Book Club*: a start-up project that allows everyone to rent books easily with reasonable fee.

Experience gained: obtained some experience about sale and marketing; improved communication skills

- *Translator*: Translate technical news from English to Vietnamese for [Thế giới di động](#)
Experience gained: Huge improvement in reading and writing skill.

ACHIEVEMENTS

- First prize in the National Olympic for IT Student 2011 – The Open Source Software contest
- First prize in the National Olympic for IT Student 2012 – The Open Source Software contest
- First prize of the Mastering IT 2012 contest, which was held at the University of Technical Education.
- First prize of Windows Phone Hackathon HCM 2012 contest.

CERTIFICATIONS

- Microsoft Certification Exams Completed Successfully:
 - *TS: Windows Communication Foundation Development with Microsoft .NET Framework 4*
 - *TS: Windows Applications Development with Microsoft .NET Framework 4*
- Microsoft certificate for Microsoft Student Partner
