Mai Gia Tran

Phone : +84934589893

Email: maigiatran@gmail.com

Senior FullStack Javascript developer

EDUCATION BACKGROUND

UNIVERSITY OF SCIENCE - VIETNAM NATIONAL UNIVERSITY
Bachelor of Computer Science and Technology (Advanced)
Cumulative GPA: 8.04

SKILLS and TECHNOLOGIES

Major Skill NodeJS + .NET Framework

Programming & Scripting Language: Java Script, HTML/CSS, XML, C#
Web Application Development: ASP.NET MVC 3, 4 (using mostly), 5
Database: MS SQL, SSRS, SSIS, Entity Framework, Mongoose, MongoDB, PostgreSQL (NO-SQL)
Front-End Framework: JQuery 1.9.1, Knockout, , AngularJs , Bootstrap, ReactJs
Continuous Integration: Hudson, Sonar, MSBuild
Web hosting: IIS7, Apache
Version Control System: Svn, Git, Team Foundation Server
Keep track bugs/tasks/issues: Redmine/Jira
Development Methodology: Agile, Scrum, TDD
IDE Tools: Visual Studio 2008, 2010, 2012
Testing: MS Unit Testing, Moq, Mocha
Web Services: Developing Web Services (SOAP) using WCF 4.0, Swagger, ExpressJS
Design Pattern: N-tiers, Dependency Injection, Solid Principle
Logging: Log4Net
Additional tools: Resharper, Nuget, NPM
Cloud Service: Microsoft Azure
Mobile: Cross-platform with IONIC, Cordova

FOREIGN LANGUAGE

English, Fluently to communicate
Speaking: good
Listening: good

Writing: good
Reading: good

TOEIC: 820
IELTS: 6.5

ACTIVITIES

Member of the Executive Committee of Vietnamese Students' Association of Ho Chi Minh University of Natural Science 2007– 2008, Ho Chi Minh city

Achievements:

- attracted thousands of students to participate in “6 bai ly luan chinh tri” contest within the jury duty role
- participate in “Mua He Xanh” Campaign 2008
- participate in “Hien Mau Nhan Dao” 2008

Mathematics Competition

Olympic 30-4 the South of Vietnam Mathematics 2004, Ho Chi Minh city

Achievement: bronze medal and Certificate

Mathematics Competition

Olympic 30-4 the South of Vietnam Mathematics 2005, Da Nang city

Achievement: silver medal and Certificate

Mathematics Contest 9,10,11 Grade of Da Nang city

2003 Achievement: 3rd runner - up

2004 Achievement: 3rd runner - up

2005 Achievement: 3rd runner - up

Hackathon hosted by Emirates Group IT in Dubai-2015

3rd runner – up for 24 hours coding the app for cross-platform

ARCHIVEMENT

- Always be entrusted to take as key member of almost projects ever joined
- Have presentations for teams such as Load balancing, SQL Performance Tuning
- Lead 02 programs, which have been rolled out on production

WHY SHOULD HIRE ME

- 07 years' experience in software Industry mostly fullstack.
- Capable of building entire application's life cycle from the scratch till the production
- Experience working in international firms. Communicate very well with clients speaking English.
- Adapt quickly in various environments. Constantly update knowledge requiring learning curve

TMA Solutions

Year Oct 2010- Nov 2011

Role: Java Developer

Technology used: Android development, Asterisk, Web (Html/Css/Js)

ASWIG Solution, Australian-based company

Year Nov 2011 – Feb 2015

Role: Senior Fullstack Web Developer

Technology used: .NET framework to build Web Applications

HISTORY**Camonban.vn, The First Startup (Failed)**

Year Sep 2014- Feb 2015

Role: Technical Leader of backend team, build whole website and admin page

Technology used: Html/CSS5 to build landing page + admin page. Using Azure cloud to host the web

Emirates Airline, headquarter (and work location) based on Dubai

Year: March 2015- Present

Role: Technical Leader

Technology used: Mean.JS (MongoDB, ExpressJs), Ionic, Cordova to build cross-platform mobile apps. Apps running based on Azure Cloud services

**HIGHTLIGHT
PROJECTS
(already
running on
production)**

Company	Emirates Airline
Project	Journey Manager
Description	Journey Manager is a cross-platform app running on both IOS and Android. This aims to support travel agent to coordinate transit-passengers in the airport, help them check-in and even claim for the missing baggage
