

RESUME

PERSONAL DETAILS:

Name	Pham Anh Tho	
Address	98/32B Dat Moi Street, Binh Tan District, HCM City, Viet Nam	
Date of Birth	Oct 27, 1981	
Sex	Male	
Contacts	Mobile Phone: +84906687991 Email Address: phamanhtho@gmail.com Msn: pham.anh.tho@hotmail.com	

LANGUAGE CAPABILITY

Language	Spoken	Written	Reading	Remarks
English	Upper-Intermediate	Upper-Intermediate	Upper-Intermediate	Upper-Intermediate

EDUCATIONAL QUALIFICATION

Name of University	Qualification & Major	Duration of Course	
		From	To
Vietnam National University - University Of Natural Sciences	Bachelor of Computer Science	1999	2003

EMPLOYMENT HISTORY

Name of Company	Nature of Business	Designation	Duration of Employment	
Evolution Vietnam Co. Ltd	Software Development	Senior Software Engineer/Team Leader	3-2014	present
Outsourceit International Vietnam Co. Ltd (www.outsourceit.vn)	Software Development	Senior Software Engineer	12-09-2011	present
EPSOFT Co. Ltd (www.mypsoft.com)	Software Development	Senior Software engineer	03-06-2007	12-08-2011
SciAnt Vina Co. Ltd (www.sciant.com)	Software Development	Senior Software Engineer	13-11-2006	13-4-2007
Paragon Solutions Vietnam (www.psv.com.vn)	Software Development	Software Engineer	20-5-2004	20-9-2006
NETTEL Holdings Inc, EnTec Software, Ho Chi Minh city, Vietnam (www.entecsoftware.com)	Software Development	Software Engineer	1-7-2003	15-5-2004
NForce Solution Pte. Ltd. (http://www.nforce.com.sg) (working as part time job)	Software Development	Software Engineer	8-2006	03-06-2007

SUMMARY OF WORKING EXPERIENCE

- Ten years of experience in software development.
- Four years of experience in embedded system.
- Four years working in overseas (2 years in Korea, 2 years in Singapore).
- Three years working with SQL Server.
- Six years working with .NET.
- Good experience in Object-Oriented Analysis and Designs.
- Good knowledge in the E-Learning, Health Care System, ERP System, Management System.
- Good experience in multi-tier model

SUMMARY OF TECHNICAL SKILLS

- Operating Systems & Embedded Systems:
 - Windows (2000 Server, 2003/x32-x64, XP, Seven, Eight)
 - Linux
 - LynxOs
- Programming Languages & Tools:
 - Visual C++, Visual Basic, VC#.NET, VB.NET
 - J Builder
 - Scripting Languages: JavaScript, VBScript, ASP, ASP.NET, PHP, HTML, XML
 - SQL (MS SQL Server, MS Access, MySQL, Oracle)
 - Eclipse
- Technologies & Libraries:
 - MFC, .NET MVC, WPF, WCF, Silverlight
 - .NET Enterprise Library
 - Entity Framework
 - Embedded SDK (HP CHAI SOE SDK, HP IOF SDK)
- Database Server:
 - Oracle, MS SQL Server, MS Access, MySQL
- Web Server:
 - Apache, IIS
- Packages:
 - Install Shield 2009,X
- Development team tools:
 - TFS, Visual SourceSafe, SVN
- Methodologies: Scrum
- Other Special Skills:
 - Teamwork spirit.
 - Fast learning and quick to understand new technology.
 - Capabilities in collecting requirements and system analysis.

DETAILS DESCRIPTION OF PROJECTS DONE

Project 1

Project Title: Evolution				
Project Developed For: Evolution (http://www.branddevelopers.co.nz/)				
Job Title / Designation Senior Software Engineer/Team Leader		Duration	From 3-2014	To present
Responsibilities / Duties · Play the role of Team Leader to manage front-end team in Vietnam Office. · Take responsibility to make sure code quality (perform code review) · Communicate directly with Scrum master & Product Owner in New Zealand for getting the requirements · Create tasks, estimation				
Hardware:		Operating System: Windows OS		No. Lines of Code:
Software Packages / Programming Languages: WS2013/ JS/C#				
Project Description: This is ERP solution for the wider business community which include many modules Warehousing, Accounting, Tenancy, Sales, Inventory and Logistic Technologies · Front-end: Angular MVC, requirejs for modular, signalr for real-time data exchange between client-server, nodejs+requirejs as javascript optimizer tool, jasmine as front-end testing framework,... · Back-end: CQRS - Event sourcing, raven database, Greg-young event store, WCF, MSMQ				

Project 2

Project Title: CXStudio + ATAdmin				
Project Developed For: Conexus (www.conexus.no)				
Job Title / Designation Senior Software Engineer/Business Analyst		Duration	From 9-2011	To present
Responsibilities / Duties . Play the role of senior Developer. . Communicate directly with Scrum master & Product Owner in Norway for getting the requirements . R&D . Develop and fix bugs...				
Hardware:		Operating System: Windows OS		No. Lines of Code:
Software Packages / Programming Languages: WS2010/ .NET 4/				
Project Description: - This project is a system to manage surveys of all school in Norway. - This is a web page application.				

Project 3

Project Title: EzFax2Email Reporting Center			
Project Developed For: EPSOFT Co. Ltd (www.mypsoft.com)			
Job Title / Designation Senior Software Engineer	Duration	From 1-2011	To 12-8-2011
Responsibilities / Duties . Play the role of senior Developer. . Develop and fix bugs . Write GUI spec, design documents... . Design technical structure documents...			
Hardware: HP printer	Operating System: LynxOs/Windows OS	No. Lines of Code:	
Software Packages / Programming Languages: WS2010/ .NET 4/ Silverlight			

Project Description:
<ul style="list-style-type: none"> - This project is a system to manage the fax job information (including sending and receiving) of HP printers. This application work parallel with EasyReport 5 Project. - Some technologies we use for this project .NET 4.0, Silverlight, RIA Service, apply MVVM patterns - This is a web page/embedded application.

Project 4

Project 4

Project Title: EasyPrintSaver (or Easy SMB)				
Project Developed For: EPSOFT Co. Ltd (www.myepsoft.com)				
Job Title / Designation Senior Software Engineer		Duration	From 1-2010	To 11-2010
Responsibilities / Duties . Play the role of senior Developer. . Develop and fix bugs . Write GUI spec, design documents... . Design technical structure documents...				
Hardware: HP printer		Operating System: LynxOs/Windows OS		No. Lines of Code:
Software Packages / Programming Languages: WS2005/ .NET 2 Installshield 2009				
Project Description: <ul style="list-style-type: none">- This project is a system to manage the job accounting information (print job only) of HP printers for SMB. It can manage the user quota/ printing rule for each user and also provide report.- Some technologies we use for this project HP CHAI SOE sdk, java jdk 1.2, 1.3, HP IOF- This is a window/ embedded application.				

Project 5

Project Title: EasyReport5 – CR-Module				
Project Developed For: EPSOFT Co. Ltd (www.myepsoft.com)				
Job Title / Designation Senior Software Engineer		Duration	From 10-2007	To present
Responsibilities / Duties . Play the role of senior Developer. . Develop and fix bugs . Write GUI spec, design documents... . Design technical structure documents... . Maintain the solution				
Hardware: HP printer		Operating System: LynxOs		No. Lines of Code:
Software Packages / Programming Languages: Eclipse (java jdk 1.2), CHAI sdk. IOF				
Project Description: <ul style="list-style-type: none">- This project is a system to manage the job accounting information and audit tracking information of HP printers. This application work parallel with EasyReport 5 Project.- Some technologies we use for this project HP CHAI SOE sdk, java jdk 1.2, 1.3, HP IOF- This is an embedded application.				

Project 6

Project Title: EasyIDCopy			
Project Developed For: EPSOFT Co. Ltd (www.myepsoft.com)			
Job Title / Designation Senior Software Engineer	Duration	From 3-2008	To 5-2008

Responsibilities / Duties . Play the role of senior Developer. . Develop and fix bugs . Write GUI spec, design documents... . Design technical structure documents...		
Hardware: HP printer	Operating System: LynxOs	No. Lines of Code:
Software Packages / Programming Languages: Eclipse (java jdk 1.2), CHAI SOE sdk. IOF		
Project Description: - This project is a system to execute a copy function for ID Card. - Some technologies we use for this project HP CHAI sdk, java jdk 1.2, 1.3, HP IOF - This is an embedded application.		

Project 7

Project Title: EasyFaxPrintCapture			
Project Developed For: EPSOFT Co. Ltd (www.myepsoft.com)			
Job Title / Designation Senior Software Engineer	Duration	From 08-2007	To 10-2007
Responsibilities / Duties . Play the role of Developer. . Develop and fix bugs . Write GUI spec, design documents...			
Hardware: HP printer	Operating System: LynxOs	No. Lines of Code:	
Software Packages / Programming Languages: Eclipse (java jdk 1.2), CHAI sdk. IOF			
Project Description: <ul style="list-style-type: none">- This project is a system to manage the spool file of HP printers- Some technologies we use for this project HP CHAI sdk, java jdk 1.2, 1.3, HP IOF- This is a embedded application.			

Project 8

Project Title: EasyFaxToEmail			
Project Developed For: EPSOFT Co. Ltd (www.myepsoft.com)			
Job Title / Designation Senior Software Engineer	Duration	From 06-2007	To 08-2007
Responsibilities / Duties . Play the role of Developer. . Develop and fix bugs . Write GUI spec, design documents...			
Hardware: HP printer	Operating System: LynxOs	No. Lines of Code:	
Software Packages / Programming Languages: Eclipse (java jdk 1.2), CHAI sdk			
Project Description: <ul style="list-style-type: none">- This project is a system to manage fax information of HP printers- Some technologies we use for this project HP CHAI sdk, java jdk 1.2, 1.3- This is an embedded application.			

Project 9

Project Title: Recruiting Campaign Management System			
Project Developed For: Sciant Vina Co. Ltd (support for HR department) (www.sciant.com)			
Job Title / Designation Senior Software Engineer	Duration	From 10-2006	To present
Responsibilities / Duties . Play the role of Senior Developer. . Design framework for system, Design GUI . Write GUI spec, design documents...			
Hardware: N.A	Operating System: Windows NT, Windows 2000 Server/Pro,	No. Lines of Code:	

Windows XP	
Software Packages / Programming Languages: MS Visual Studio 2005 (C#), MS SQL Server 2005	
Project Description: <ul style="list-style-type: none"> - This project is a management system to manage recruiting information of HR department - Some technologies we use for this project .NET 2.0, Enterprise Library, Data Access Application Block, Configuration Application Block. - This is a web-based application. 	

Project 10

Project Title: SMSCB				
Project Developed For: NForce Solution Pte. Ltd. (http://www.nforce.com.sg)				
Job Title / Designation Part Time Senior Software Engineer		Duration	From 8-2006	To present
Responsibilities / Duties . Play the role of Developer. . Design framework for system . Play the role of BA.				
Hardware: N.A		Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP, Windows FX		No. Lines of Code:
Software Packages / Programming Languages: MS Visual Studio 2005 (VB.NET), MS SQL Server 2005				
Project Description: <ul style="list-style-type: none">- This project is a management system to manage personnel information (doctor, nurse, patient...), arrange schedule for specified personnel (doctor, nurse...) in the hospital.- Some technologies we use for this project .NET 2.0, Enterprise Library (Data Access Application Block, Configuration Application Block...)- This is a windows-based application.				

Project 11

Project Title: MITEK				
Project Developed For: MITEK – one of PSV's Client (www.mii.com)				
Job Title / Designation Software Engineer		Duration	From 7-2005	To 10-2006
Responsibilities / Duties . Play the role of Senior Developer. . Design general module, divide use case for other developers in small team . Solve some solutions when facing some problems in implementation of .net beta version				
Hardware: N.A		Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP, Windows FX		No. Lines of Code:
Software Packages / Programming Languages: MS Visual Studio 2005 (C#), MS SQL Server 2005				
Project Description: <ul style="list-style-type: none">- This project is a big management system to manage all information (customers, transactions, products (building components)...) of MiTek around the world. It allows user design building components, then all information they choose will send back to the supplier. The Supplier gets this information and builds these products then sends it back to Customer.- Some technologies we use for this project. Windows Vista, .NET 3.0, Windows Presentation Foundation, Avalon, Indigo (new .NET technology currently). Enterprise Library (Caching Application Block, Exception Handling Application Block, Data Access Application Block, Configuration Application Block...), Globalization- This is a windows-based application.				

Project 12

Project Title: ATMS			
Project Developed For: Internal Project of PSV			
Job Title / Designation · Play the role of Developer. · Play the role of Business Analyst		Duration	From 5-2005 To 7-2005
Responsibilities / Duties Software Engineer			
Hardware: N.A	Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP	No. Lines of Code:	
Software Packages / Programming Languages: MS Visual Studio 2005 (VB.NET, ASP.NET), Java Script, HTML, MS SQL Server 2000			
Project Description:			

<ul style="list-style-type: none"> - This project is management project for all associates of PSV working in onshore or offshore including all information of all associates, rental car, housing...Manage all information import & export to excel file on website for admin. Synchronize Data & Send alert to Out Look Email - Some technologies we used for this project: ASP.NET, XML, .net 2.0), Enterprise Library (Caching Application Block, Exception Handling Application Block, Data Access Application Block, Configuration Application Block...) - This is a web-based application.
--

Project 13

Project Title: Cox Portal			
Project Developed For: Cox – one of PSV's Client (http://www.cox.com/)			
Job Title / Designation . Play the role of Developer. . Building demo for customer by using Plumtree Portal, ASP.NET 1.1		Duration	From 3-2005 To 5-2005
Responsibilities / Duties Software Engineer			
Hardware: N.A	Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP	No. Lines of Code:	
Software Packages / Programming Languages: MS Visual Studio 2003 (C#, ASP.NET), Java Script, HTML, MS SQL Server 2000			
Project Description: - This project create module: Search Engine, Favorite, List Product and integrate it in Plumtree Portal (http://www.plumtree.com) - Some Technologies we used for this project: ASP.NET, XML, Plumtree Portal - This is a web-based application.			

Project 14

Project Title: Teds-Simulator			
Project Developed For: TEDS – one of PSV's Client (http://www.teds.com)			
Job Title / Designation Software Engineer	Duration	From 5-2004	To 3-2005
Responsibilities / Duties . Play the role of Developer. . Develop Recorder module by using Hook technical (C++)			
Hardware: N.A	Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP	No. Lines of Code: About 1000 files, approximate 800 lines/file	
Software Packages / Programming Languages: MS Visual Studio 2003 (C++), Java Script, HTML.			
Project Description: <ul style="list-style-type: none">- The main functions are: help trainers make the training courses (lesson).- This project includes 3 modules:<ul style="list-style-type: none">o Recorder: let you record the computer screen. It able record your actions on screen: action type (click, right click, double click, type...) get information of the control you do these actions on.o Authoring: Let you create your lesson. You can create a new lesson or import lesson from Recorder. It provides some objects: static text object, text object, click zone, audio/video object. It's a little bit the same with Microsoft Vision. You can drag/drop an object, change its size, its properties.o Publishing: let you preview your lesson before public. Help users public the lesson to others format: SCORM, HTML, HTML Index, Flash, Word.- Some technologies we used for this project: GDI++, XML, MFC/VC++, Install Shield, JavaScript.- This is a windows-based application			

Project 15

Project Title: NETTEL SPAM BLOCKER			
Project Developed For: ENTEC Company			
Job Title / Designation Software Engineer	Duration	From 1-2004	To 5-2004
Responsibilities / Duties . Play the role of Developer, Business Analyst . Develop on Windows XP, Windows 2000/NT			
Hardware: N.A	Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP	No. Lines of Code:	
Software Packages / Programming Languages: Java, J Builder			

Project Description:
 - This project is to develop the security software for blocking spam mail.
 - **This is a windows-based application.**

Project 16

Project Title: NETTEL WEBCAM WATCHDOG				
Project Developed For: ENTEC Company				
Job Title / Designation Software Engineer		Duration	From 10-2003	To 12-2003
Responsibilities / Duties . Play the role of Developer, Business Analyst. . Develop on Windows XP, Windows 2000/NT				
Hardware: N.A		Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP		No. Lines of Code:
Software Packages / Programming Languages: MS Visual Studio (VC++).				
Project Description: - This project is to develop the security software for motion detection given by web cam. By using dynamic link library for implement video recording, motion detection. - Some technologies we used for this project: using some video audio codec, using thread for implement record video, audio, convert format. - This is a windows-based application.				

Project 17

Project Title: ENTEC SAFEWORD.				
Project Developed For: ENTEC Company				
Job Title / Designation Software Engineer		Duration	From 7-2003	To 10-2003
Responsibilities / Duties . Play the role of Developer, Business Analyst. . Develop on Windows XP, Windows 2000/NT				
Hardware: N.A		Operating System: Windows NT, Windows 2000 Server/Pro, Windows XP		No. Lines of Code:
Software Packages / Programming Languages: MS Visual Studio (VC++).				
Project Description: - This project is to develop the security software for motion detection given by web cam. By using dynamic link library for implement video recording, motion detection. - Some technologies we used for this project: using some video audio codec, using thread for implement record video, audio, convert format. - This is a windows-based application.				

RECOMMENDATION & RREFERENCE LETERS:

EPSOFT CO. LTD

Centrex Bldg RM922, 440-4, Cheongcheon-dong, Bupyeong-gu, Incheon, P.O 403-030 South-Korea.

Tel: +82-32-363-3479~80 FAX: +82-32-363-3478

letter of recommendation

Date: 8-June-2011

To whom it may concern:

As R&D manager of the software development group in Epssoft, I would like to recommend

PHAM Anh Tho, aka Ted, as senior software developer.

Ted starting working at Epssoft in 2007 and worked in South-Korea for two years. After the two years in Korea, he signed up for another contract with Epssoft, but to gain more international experience he requested to work at the Epssoft branch located in Singapore.

As senior software developer Ted was involved in various projects but was also lead developer for Epssoft flagship product CR-module.

He has gained extensive experience in writing embedded software for HP printers using Java and C. On the PC he diligently worked on various projects using C++, C#, ASP and SQL. He also did Epssoft's first full scale project involving .net 4.0 with Silverlight using the MVVM pattern, RIA services and WCF.

Ted has shown remarkable ability to learn various programming languages and combine the individual program components into a single interoperable solution.

I would like to praise Ted's work ethics, delivering work on time and truthfully reporting technical difficulties or possibilities, and working towards solutions. Providing his own input on various topics from workflow to technical related items has always been much appreciated.

Epssoft's R&D headquarter is located in South-Korea. Ted's move to Singapore raised an extra challenge to work remotely from HQ, and many of the devices. This needs extra skill to remotely work on the devices. The move to Singapore has demonstrated his skill to work independently.

For Epssoft's workflow Ted has learned to use various tools like subversion (source control), Visual Paradigm (modeling/documentation), Jira (issue tracker) and Confluence (wiki). Because of his extended employment with Epssoft his English language ability is now very good and it is easy to communicate with him.

Ted has been a valued and much appreciated collage; his contribution to Epssoft's product development team has been substantial.

If I can be of any further assistance or provide you with any further information, please do not hesitate to contact me.

Sincerely,

Name: Paul Tjong-A-Tjoe
Position: R&D Manager, EpSoft, Ltd Korea
Email: Ptt@myepsoft.com

Letter of recommendation

To Whom It May Concern:

I am pleased to recommend Pham Anh Tho, aka Ted, to you. He worked with our company as a Senior Software Engineer from 2007-2011.

During his stay in EPSOFT, I have known Ted as a professional competent person and also compassionate co-worker. His contribution to the various projects has been exemplary. His dedication, hard-work and sincerity have enabled him to be a quick-learner on the job. He has taken the responsibility assigned to him. He can work independently and is able to follow through to ensure that the job gets done.

Though the company regrets losing him, we understand his needs to return back to Viet Nam. I would fully recommend Ted to you, as he would be a definite asset to your company.

If you have any further questions, please do not hesitate to contact me at the below number / email
