RÉSUMÉ

LUAN DINH CHI

SUMMARY

- o 3 years of experience in web development
- o 1 year of experience in testing
- o Good programming and problem solving skills
- o Ability to work independently or team work
- o Sense of responsibility, eagerness to learn and work

SKILLS

- o Programming languages: Javascript, NodeJS, AngularJS, PHP, HTML, CSS, Bootstrap, JQuery, Ajax
- o Database: SQL Server, MySQL, Couchbase, MongoDB, RethinkDB
- o Operating system: Windows, Linux (Ubuntu)
- o Language: Fluent communication (TOEIC 770)

JOB EXPERIENCE

- o 4/2013 – Present: TMA Solutions
 - Web Developer: PHP, AngularJS, NodeJS, Javascript, Responsive UI...
 - Quality Control, Business Analyst Support
- o 10/2012 - 1/2013: LogiGear VietNam
 - Product Support: do automation test with “Test Architect” tool

RELAVANT PROJECTS

PROJECT DESCRIPTION	TECHNOLOGIES
<p>Social Network Web</p> <p>Web for social network activities: chat, activity post...</p> <p>Features:</p> <ul style="list-style-type: none"> o Chat, Realtime activity post, update, comment... <p>Duties:</p> <ul style="list-style-type: none"> o Analysis and clarify requirement with team, customer (directly verbal talk) o Implement feature, fix bugs o Review code 	<ol style="list-style-type: none"> 1. Angularjs 2. Bootstrap 3. Async, lodash 4. Json, broadcast, emit 5. BranchIO, ng-notify 6. angular-bugsnap 7. betsol-ng-intl-tel-input 8. Moment, ng-file-upload 9. Git, Github 10. App asana
<p>Sprinter Management Web</p> <p>Web to manage statistic for 3d sprinters</p> <p>Features:</p> <ul style="list-style-type: none"> o Manage sprinter's statistic about using status, available status, consumer ... <p>Duties:</p> <ul style="list-style-type: none"> o Analysis and clarify requirement with customer o Implement feature, fix bugs o Review code 	<ol style="list-style-type: none"> 11. NodeJS- ExpressJs 12. Angularjs 13. Event Emitter 14. Bootstrap 15. D3 16. RethinkDB 17. Promise, Underscore 18. Json 19. Twilio 20. Bitbucket, Jira
<p>Telecommunication Management Web</p> <p>Web to manage telecommunication for many user levels: admin, supervisor, user ...</p> <p>Features:</p> <ul style="list-style-type: none"> o Manage telecommunication for: Tenant, Group, Team, User... <p>Duties:</p> <ul style="list-style-type: none"> o Analysis and clarify requirement with customer (meeting via skype call once a week) o Design and Implement API o Review code and deploy 	<ol style="list-style-type: none"> 21. NodeJS- ExpressJs 22. Angularjs, Bootstrap 23. Couchbase DB 24. Promise, Underscore 25. Halson, Json 26. Twilio 27. HTTP headers: If-Non-Match, Accept, Authorization ... 28. SourceTree, Bitbucket 29. SVN, Jira

<p>Health Management Web</p> <p>Features: Manage client, care giver, appointment, content...</p> <p>Duties:</p> <ul style="list-style-type: none"> o Analysis and clarify requirement with leader and customer o Design and Implement API o Implement FE feature o Review code and deploy 	<p>30. NodeJS- SailsJs 31. AngularJS 32. SB Admin 2 33. WYSIWYG- textangular 34. MongoDB 35. Bookshelf, Knex 36. Async, nodemailer 37. Halson, Json, Lodash 38. Git, Remine</p>
<p>Blog Management System</p> <p>Features: Manage blog, article, image, user...</p> <p>Duties:</p> <ul style="list-style-type: none"> o Analysis and clarify requirement with leader and FE team o Design and Implement API o Review code and deploy 	<p>39. NodeJS- Loopback 40. MongoDB 41. Async 42. Halson, Json, Underscore 43. Authorization 44. Storage Service, Mail 45. Git, Remine</p>
<p>Health Care Web</p> <p>Develop a modern web to support people for health care: manage stress, build resilience and optimise performance on the go.</p> <p>Features:</p> <ul style="list-style-type: none"> o Learn about resilience o Understand service challenges o Tools to manage stress o A plan to improve resilience <p>Duties:</p> <ul style="list-style-type: none"> o Analysis and clarify requirement with customer (daily meeting via skype call) o Design, Implement and review code o Unit test and deploy 	<p>46. AngularJS 47. Bootstrap 48. HTML5, CSS3, Less 49. PHP- Wordpress 50. MySQL 51. SourceTree, Bitbucket, SVN, Jira 52. Grunt, bower, vargrant, NgBoilerplate</p>
<p>Learning management system</p> <p>It's a learning management system to manage and hold learning through the hierarchy levels: district, school, teacher, class, student, course taking...</p> <p>Main modules:</p>	<ul style="list-style-type: none"> o PHP/Yii framework o MySQL o HTML, CSS, JQuery, Ajax o Do report o Cut PSDs, do UI o Git, SVN, Redmine

<ul style="list-style-type: none"> • Landing Page (Site Admin, Teacher) <ul style="list-style-type: none"> o Manage Users: Add/Edit Users o Manage Districts: Add/Edit Districts o View Activity Report o Manage Classes: Add/Edit Classes o View Course <ul style="list-style-type: none"> ▪ Course Landing Page ▪ HTML View of Course ▪ Random Quiz Questions <p>Duties:</p> <ul style="list-style-type: none"> o Communicate and clarify requirement with customer o Implement feature and review code o Test and deploy 	
<p>Want board</p> <p>A system helps user buy desired products in quick way, and sell their products more efficient. It is a communication channel between Buyer and Seller, Seller can easily looking for the potential buyers and contact to them....</p> <p>Duties:</p> <ul style="list-style-type: none"> o Analyze and clarify requirement with customer o Implement features and APIs 	<ul style="list-style-type: none"> o PHP- Yii framework o HTML, CSS, JQuery, Ajax o Database: MySQL o Cut PSDs, do UI o Git, Bitbucket
<p>Book Selling</p> <p>A website helps user find and buy books online. Admin user can manage book information, manage user, role...</p> <p>Duties:</p> <ul style="list-style-type: none"> o Analyze and clarify requirement o Implement features 	<ul style="list-style-type: none"> o PHP- MVC model o HTML, CSS, JQuery, Ajax o MySQL
<p>Student Management</p> <p>Main modules:</p> <ul style="list-style-type: none"> • Manage student information • Manage school, teacher, class • Manage subject, period registration • Manage examination schedule <p>Duties:</p> <ul style="list-style-type: none"> o Analyze, design system o Implement features 	<ul style="list-style-type: none"> o C# o SQL server, Lin-Q o Crystal report (SAP)

o Package the application	
Drop web A social article sharing app that lets you compose rich blog articles, save them to the cloud, share with your friends Duties: <ul style="list-style-type: none"> o Analyze and clarify REQs o Define TCs o Test and report 	o Testing
LG App This is LG TV app (WebOS) based on AccuWeather TV app, using the Enyo framework Duties: <ul style="list-style-type: none"> o Analyze and clarify REQs o Define TCs o Test and report 	o Testing
SkyMotion SkyMotion provides hyper-located weather by minute. This project is to rework the current SkyMotion. Duties: <ul style="list-style-type: none"> o Analyze and clarify REQs o Define TCs o Test and report 	o Testing
Automation Test Duties: Do automation test with “Test Architect” tool: <ul style="list-style-type: none"> o Develop, plan and implement automated test cases based on software requirements and technical understanding. o Run and debug tests against AUT builds/releases during its development lifecycle o Report 	o Automation test

EDUCATION

- o 9/2008 – 7/2012: Bachelor of Engineer, major in computer science in HCM University Of Industry.
