Senior Developer iOS & PM — 09/2016 - present

I am senior Dev 4 in FPT Software. I take respoinsibility to develope and manage a module of **Boeing Mobile App naming Aviator**. Develop, review code, refactor code, and suggest ideal to other team members to resolve issue is my work. I am very proud of project quality. This app is primary project in our company. From this app, FSoft have expanded customer network to VietNam Airline, Airbus.

Framgia

Dev — 09/2015 – 09/2016

I start this job as junior iOS Dev, but now I am a Senior iOS Dev. I have many contribution ideal for company, (both of technique and organization) and our company has already applied. In Framgia, I use Swift / Objective C languages for develop mobile apps. Some project has been done:

- **Man To Man**: seek jobs for Japanese
https://itunes.apple.com/us/app/man-to-man-zhi-zao-gong-changwakuni/id1068101292?mt=8

- **MR Wedding / MR HappyNewYears** ... Our customer work in printing zone, they produce and sell gift card which has barcode in, the customer of the customer will create videos with this bar code, and send it to friends. The friends use our app to get and play video like a present.
https://itunes.apple.com/us/app/dong-huade-nian-he-zhuang/id1035201006?ls=1&mt=8

- **Test Map for ZMSMap SDK**: build a app for testing Map SDK

- **Mun**: Navigation Route - rebuild and refactor old source code and help our customer sold it.
