Summary

I'm looking for a chance to explore myself and contribute my abilities to the development of the best Android apps.

Experience

MOCA COMPANY — 4/2016 - Present
Android Developer

MOCA is a fintech startup, mobile payment system. Without POS, without cash, without card, Moca can pay any bills at hundred of merchant systems in Viet Nam.

I started at Moca as a developer in a 2-member-team.

Initially, the application does not have the structure and the interface is not good, then my team discuss and decide developed on MVP pattern, this pattern help us to manage and update source better. In this time, we have updated full UI about 2 months, and so far continues to develop features based models.

I have updated the permission for app to match the technology requirements.

Beside, we want to ensure quality code, so implement unit test.

Link on Play Store: https://play.google.com/store/apps/details?id=vn.moca.pass

EMBRACE-IT COMPANY — 9/2015 - 3/2016
Software Engineer

Embrace-it is an expanding Danish management consultancy houseand software development partner with 85+ highly skilled specialists and developers based in Denmark, Vietnam and Pakistan.

I joined build an app android, it's sale flowers app, I implemented all the UI screens and animations. I've join design and discuss about this product .

I usually practice myself by code small function with new knowledge and upload it to github for those people refer and share. (Example: google map, facebook api, customview, firebase…)

Besides, I joined maintain a travel website, fix bug (include database and code) and code new function by PHP and SQL.

Moreover, I also participated in the project as a freelance:
- Accounting management software:
+ order
+ service management: courier, freight rate…
+ create report (Crystal Report)

EPINION COMPANY — 3/2015 - 8/2015
Intership/Assitant

Epinion is a leading research and insights management solutions company with Nordic roots.

Skills

Android

Team-work

C# - C

SQLite, SPSS

SQL

DevExpress
